2014 - 2020: Revised to reflect 2015 call priorities (1st June - 7th October)

		THEMATIC PRIORITY	PROJECT TOPICS	PROJECT TYPE
		Water, including the marine environment Waste	Water, floods and drought	Pilot or demonstrative projects
			Marine and coastal management	
			Water Industry Implementation of waste legislation	
			Waste and Resource efficiency	
	Environment &		Resource Efficiency, green and circular economy	
		Resource Efficiency, including soil and forests, and green and circular economy	Soil	
	Resource Efficiency		Forests	
		Environment and Health, including chemicals and noise	Chemicals	
			Noise	
	Nature & Biodiversity		Industrial accidents	
		Air quality and emissions, including urban environment	Air quality legislation and the NEC Directive Industrial Emissions Directive	
			Urban environment	
			Natura 2000/ B&H Directive	
	Nature & Biodiversity	Biodiversity	Union Biodiversity Strategy to 2020	projects
		Water	WFD obligations and opportunities	Information, awareness and dissemination projects
			Water pricing policies	
			Beach and sea clean up schemes	
			MSFD obligations and opportunities	
			Sea basin strategies (transnational projects) Phasing out landfilling of recylables	
E N V		Waste		
			Waste reduction especially WEEE and plastic waste European users of genetic resources	
		Resource Efficiency, including soil and forests, and green and circular economy	Food waste & optimal storage of food	
R			Consumption of soil and land resources	
0			Economic and financial benefits of resource efficiency,	
M			including soil Forest & forest fire informaion	
E		Air quality and emissions, including urban environment	Air quality in urban areas and its health effects	
N T			Promoting low cost evaluation systems	
			Easy access to publicly available information	
	Environmental	_	Hazard information on chemicals	
		Environment and Health, including chemicals and noise	Safe use of chemicals	
	Governance &		Duties under REACH	
	Information		Environmental noise data and health effects of noise	
		Nature & Biodiversity	Natura 2000	
			Large carnivores EU Biodiversity strategy	
			Invasive alien species	
			Green infrastructures	
			Access to justice in field of environment	
		Governance and enforcement	Environmental Liability Directive	
			European users of genetic resources	
		Activities in support of effective control process as	European users of genetic resources Efficiency and effectiveness of environmental inspections and surveillance	
		Activities in support of effective control process as well as measures to promote compliance	Efficiency and effectiveness of environmental inspections	
			Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers	
			Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime	
			Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation,	
		well as measures to promote compliance	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science)	
		well as measures to promote compliance	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation	
		well as measures to promote compliance	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science)	
		well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement	
€0.864bn		well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution	
€0.864bn	Climate change	well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities energy intensive industries	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution especially exposed to to significant risk of carbon leakage	
€0.864bn	Climate change mitigation	well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution	
€0.864bn	-	well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities energy intensive industries replacement of ozone depleting substances (ODS)	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution especially exposed to to significant risk of carbon leakage use of low Global Warming Potential (GWP) alternatives	
€0.864bn	-	well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities energy intensive industries replacement of ozone depleting substances (ODS) land use, land use change and forestry (=2014)	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution especially exposed to to significant risk of carbon leakage use of low Global Warming Potential (GWP) alternatives collecting carbon data from land use/soils/forests	
€0.864bn	-	well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities energy intensive industries replacement of ozone depleting substances (ODS) land use, land use change and forestry (=2014)	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution especially exposed to to significant risk of carbon leakage use of low Global Warming Potential (GWP) alternatives collecting carbon data from land use/soils/forests Low carbon farming practices, carbon sequestration Cross-border management of flood vulnerable areas Green infrastructue and ecosystem-based apporaches	
€0.864bn	mitigation	well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities energy intensive industries replacement of ozone depleting substances (ODS) land use, land use change and forestry (=2014) Agriculture Address key cross-sectoral, trans-regional and/or cross	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution especially exposed to to significant risk of carbon leakage use of low Global Warming Potential (GWP) alternatives collecting carbon data from land use/soils/forests Low carbon farming practices, carbon sequestration Cross-border management of flood vulnerable areas	Pilot, innovation, demonstration at best practice projects
€0.864bn	mitigation Climate Change	well as measures to promote compliance Sharing of best practice Promoting non-judicial conflict resolution 2015 Priorities energy intensive industries replacement of ozone depleting substances (ODS) land use, land use change and forestry (=2014) Agriculture Address key cross-sectoral, trans-regional and/or cross border issues. Green infrastructure; ecosystem-based	Efficiency and effectiveness of environmental inspections and surveillance Combating environmental crime Natura 2000 site managers Networks of volunteers Science policy integration (chemicals legislation, protection of animals used for science) Air quality legislation Green public procurement Promoting non-judicial conflict resolution especially exposed to to significant risk of carbon leakage use of low Global Warming Potential (GWP) alternatives collecting carbon data from land use/soiis/forests Low carbon farming practices, carbon sequestration Cross-border management of flood vulnerable areas Green infrastructue and ecosystem-based apporaches vulnerability asessments and adaptation strategies (inc
